The grant funding opportunities are a part of Wisconsin's investment budget for federal fiscal year (FFY) 2018. In FFY2018, Wisconsin will receive a total of \$3,980,000 in State Homeland Security Program (SHSP) grant funding.

The grant program, funded through Federal Emergency Management Agency (FEMA) Department of Homeland Security (DHS), helps to protect Wisconsin's communities by building the capacity to prevent, respond to, and recover from a catastrophic incident. DMA/WEM is the State Administrative Agency (SAA) for the program.

DMA/WEM works directly with a broad spectrum of emergency response agencies at all levels of government in developing investments to improve the state's preparedness through planning, training, exercising, and the acquisition of specialized equipment. The program focuses on a number of priorities that include building food and agriculture emergency response capability, improving information sharing, developing regional emergency response, and increasing community preparedness.

Wisconsin's investments support the State Homeland Security Strategy, which serves as the guide for homeland security funding. In addition to supporting the statewide strategy, the investment budget is also designed to meet key federal grant requirements, such as the allocation of at least 25% to law enforcement activities and a pass-through of 80% to local governments. The local pass-through requirement is met by a combination of direct grants and agreements between state and local agencies.

The state's draft investment budget was developed through outreach to the public safety and emergency management communities through a number of working groups and committees used by DMA/WEM. Once WEM is informed of their federal allocation they continue to work with stakeholders who submitted investment justifications for funding consideration to discuss their proposals and capability gaps in order to align proposals with states funding allocation as close as possible. The projects funded in these Investment Justifications were then reviewed

and prioritized by the Homeland Security Funding Advisory Working Group (FAWG) on May 30, 2018 and submitted to FEMA DHS on June 19, 2018. This committee consists of representatives from local fire and law enforcement agencies, EMS, tribal public safety, state agencies, non-profits, and the private sector. Local representatives are appointed by the state's public safety associations. Current membership of the committee represents the following organizations:

Badger State Sheriffs Association	Department of Natural Resources
Wisconsin State Fire Chiefs Association	Department of Transportation
Wisconsin Chiefs of Police Association	Dept. of Ag, Trade and Consumer Protection
Wisconsin EMS Association	Department of Administration
Wisconsin Emergency Management Assoc.	Department of Health Services
WI Tribal Emergency Mgmt. Assoc.	Department of Justice
Voluntary Organizations Active in Disaster	Wisconsin Emergency Management
Department of Children and Families	SE WI Homeland Security Partnership

Homeland Security Funding Opportunities 2018
